Compiled by Dr Charles Gay September 2011

charlesgay@optusnet.com.au

Lists obtained from telephone books, Australian Medical Directory and Personal communications.

Special thanks to Drs George Quittner, Ian Fitzpatrick, Tony Andrews, Tony Cook, Professor David Carment and many others.

There are omissions and I would be grateful if you could make me aware of them.

Special difficulty was encountered with corporate practices such as Independent Practitioners Network (Sonic Health Care) whom tend to have a policy of depersonalizing practices (Mosman Medical Practice, Mosman Medical Centre and Neutral Bay Medical Centre). As such it was difficult to obtain doctors' names from these groups
